

How to register for free e-mail: Windows Live Hotmail

1. Type <http://www.hotmail.com> into your web browser's address bar.

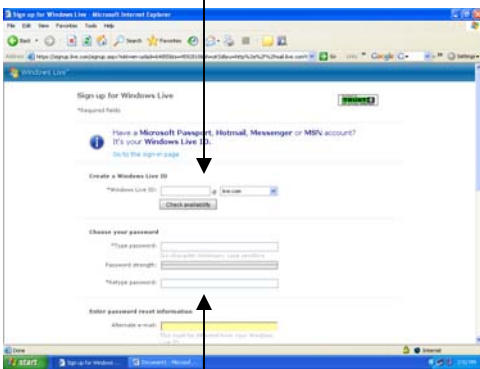

2. Click on the "Sign up" button on the left side of the screen.

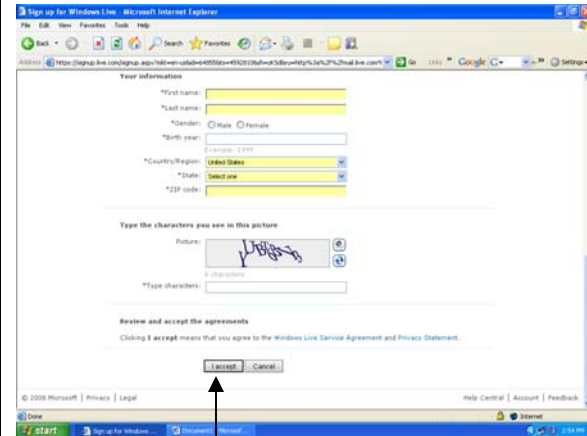

3. Click on "Get it Free" under "Windows Live Hotmail."

4. Create a "Windows Live ID." Many ID names are already taken, so you might have to pick an unusual user name or use numbers in your name.

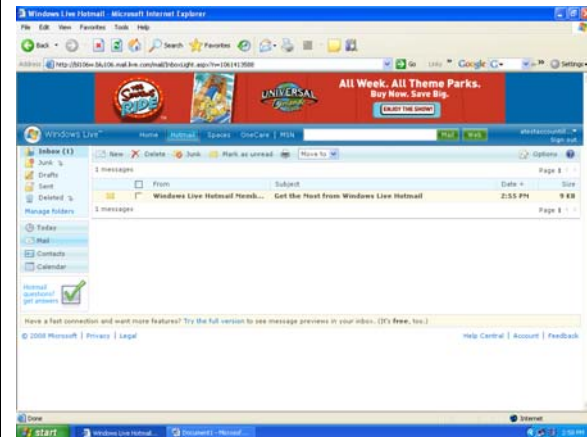

5. Create a password. Then pick a question and answer you will use to get into your account if you forget your password.

6. Scroll down, fill in the remaining information boxes, and type in the distorted characters that you see in the picture.

6. Click on the links to read the terms of service. If you agree to them, click on "I accept."

You have created your account. Windows Live Hotmail will ask you whether you prefer the "classic" or "full" display version, and then will take you to your mailbox.

IMPORTANT: Write down your Windows Live ID and password so you remember them.

Username: _____

Password: _____
