

THE QUEEN OF

CAMO-LOT

AN ORIGINAL STORY
BY MAGGI UHLAND

Once Upon a time there was a queen
who liked the colors brown, black and green
she wore camo jewelry
and camouflage clothes,
The queen's servants showed her, her new golden shoes
and she said "Take them back,
I'd never be caught dead in those!"
The pickier she got with her camouflage stuff
the more workers would quit
because they had had enough!

One day she was driving her camouflage car
when she looked out the window to see a shooting star
she thought "I have a wish but it's silly to try"
I guess It could do no harm she thinks
as she looks up at the sky
" I wish the whole world was camo,
and everyone was too"
but nothing happens when she's through
She says to herself "that was fun"
but she had no idea what she had done

The very next morning, she's awoken with a fright

by Sue, one of her servants

asking if she's alright

she says "I'm o.k.

but what happened to you Sue!"

Sue replies" the whole kingdom is camouflage!

and so are you!"

The queen then realizes

that her wish came true ,

and she then got up out of bed

and out the door she flew

As she ran outside she passed camouflage houses
and camouflage trees
camouflage animals, camouflage people
and even camo buzzing bees
She went to the mall
to get camouflage silk
and to the market
to get 2% camouflage milk
she sat on the park bench and fell asleep
by the sound of the nearby pen of camo sheep

The servants had never seen her
filled with so much joy
and all day, not once
did anyone she annoy

The morning went very good
just as the queen thought it would
except that evening, after a dinner of camouflage fish
when she offered to clean up her very own dish

That exact same moment in the kitchen
Sue and Chef Danny were talking
Sue had a secret and Danny wanted to listen

Sue says "I fear I am going to make the queen very mad"

Danny replies "Sue, it can't be that bad"

"I've lost the queen's crown and I've looked everywhere!"

Sue says "I've looked from the foyer,
to the drawer that holds her underwear!"

"I will leave before she ever knows" she says to Danny

and at that exact moment the queen walks in

the timing was completely uncanny

By what she heard, the queen was shocked

but Sue couldn't run away, for her knees were locked

The queen says "I can't believe this!

You've lost my crown!"

Sue was so embarrassed and ashamed

she felt like such a clown

especially when she couldn't find it

though she turned the castle upside down

"I found it!!" Danny cries

The queen shouts "Oh where! Oh where!"

"It's right in front of you, right there!"

The queen relieved says "Oh, your right!"

"I thought I was going blind,

I gave myself a fright!"

Sue announces "Now I know why I couldn't find it!"

"Because the camouflage would hide it!"

Sue asks "How many of you have lost something today"

Everybody raised there hands

The queen says "I guess it is a lot of trouble."

The queen reluctantly says "Okay."

That night, she saw another shooting star
the queen wishes "I wish that nothing was camo not here
not far."

She then went to bed hoping it would work
And sure enough, in the morning no camouflage
In the kingdom did lurk.
And from the selfishness the queen did now lack
Most of her servants decided to come back.
But now the queen has a new obsession

BLACK!
