

CCPL Library App Information

Available for Android, iOS and Windows devices. Search for 'Carroll County Public Library' in the appropriate Store.

Description of Features

Catalog - Search the catalog and place requests - works similarly to our full browser-based catalog.

My Account - Renew your items, manage requests, and create a virtual library card.

Digital Media - Access eBooks, digital audio and video, and magazines. Please note that you may need to install the individual vendors' apps on your device.

Online Resources - Access many of our online information resources. You may need to install the individual vendors' apps to access this information.

Events - Review upcoming events at all of our locations.

Ask and Visit Us - Contact us via phone, email or visit our full web site.

Social Media - Visit our Facebook, Twitter or Instagram sites.

BookCheck - Check out your items when you pull them off of the shelf. Saves you the step of stopping at the Self Check or Customer Service desk. *See notes below.

BookLook - See if the library has the book you just saw in the checkout line at the grocery store. Just scan the UPC barcode label on the item and the app will search our catalog. If we have it, you will be able to place a request for the item.

BookCheck Notes

Please do not use the app to check out DVDs. There is a process that the app is not able to complete at this time that queues the DVDs in the dispensers. We are working with our vendors to find a way to make this work like the in-house self-checks.
